Three wins in 2019. Six wins in 2021. Nine wins in 2022. The Austin Sol have been trending upwards for years now, and 2023 could be the year they finally climb to the top of the South Division. The Sol split games with the Carolina Flyers in the 2022 regular season before falling to the Flyers in the South Division Championship Game, and they'll be back with a vengeance in 2023 as they push for a double-digit win total for the first time as a franchise. Led by reigning Coach of the Year Steven Naji, Austin has top five potential and will have a shot at taking the division for the first time ever.
